When no such route exists without using a county road or state highway, then, in that event, the owner or operator may operate a snowmobile on the county road or state highway only to the intersection with a street, taking thereafter the most direct route to the nearest departure point from the city or appropriate snowmobile trail;
- (6) During the hours between 10:00 p.m. and 7:00 a.m. of the day next following,

(89 Code, § 8.09) (Ord. 92-63, passed 10-27-92) [Penalty, see § 10.99](#)

§ 73.03 EQUIPMENT REQUIREMENTS.

It is unlawful for any person to operate a snowmobile unless equipped with the following:

(A) Standard mufflers which are properly attached and in constant operation, and which reduce the noise of operation of the motor to the minimum necessary for operation. Mufflers shall comply with Regulation CONS. 55 which is hereby adopted by reference as it existed on September 1, 1970. No person shall use a muffler cut-out, bypass, straight pipe or similar device on a snowmobile motor, and the exhaust system shall not emit or produce a sharp popping or crackling sound;

(B) Brakes adequate to control the movement of and to stop and hold the snowmobile under any conditions of operation;

(C) A safety or so-called deadman throttle in operating condition, so that when pressure is removed from the accelerator or throttle, the motor is disengaged from the driving track;

(D) At least one clear lamp attached to the front, with sufficient intensity to reveal persons and vehicles at a distance of at least 100 feet ahead during the hours of darkness under normal atmospheric conditions. The head lamp shall be so aimed that glaring rays are not projected into the eyes of an oncoming vehicle operator. It shall also be equipped with at least one red tail lamp having a minimum candle power of sufficient intensity to exhibit a red light plainly visible from a distance of 500 feet to the rear during the hours of darkness under normal atmospheric conditions. The equipment is to be in operating condition when the vehicle is operated between the hours of one-half hour after sunset to one-half hour before sunrise or at times of reduced visibility; and

(E) Reflective material at least 16 inches on each side, forward of the handlebars, so as to reflect or beam light at a 90 degree angle.

(`89 Code. § 8.09) (Ord. 92-63, passed 10-27-92) [Penalty, see § 10.99](#)

§ 73.04 EMERGENCY OPERATION.

Notwithstanding any prohibition in this section, a snowmobile may be operated upon a public street in an emergency during the period of time when, and at locations where, snow upon the roadway renders travel by automobile impossible.

(`89 Code. § 8.09) (Ord. 92-63, passed 10-27-92)

§ 73.05 OWNER RESPONSIBILITY.

It is unlawful for the owner of any snowmobile to permit its operation in violation of this subchapter. The party holding title to the snowmobile shall be conclusively presumed to be the owner unless the snowmobile shall have been stolen and so reported to a law enforcement agency.
